EDUCATION

2021 – 2024
Ravenshaw University
B.Sc. in Information Technology & Management

2018 – 2020
LR DAV Public School
12th Board

CERTIFICATIONS

AWS Certified Cloud Practitioner
Amazon Web Services · 2025
via Udemy

SOFT SKILLS

Project Management
Cross-functional Teamwork
Time Management
Critical Thinking
Effective Communication
Leadership

LANGUAGES

English	Fluent
Hindi	Fluent
Odia	Fluent
Gujarati	Fluent

PROFILE

IT graduate with professional experience at PwC and a strong passion for building intelligent, full-stack web applications. Self-driven learner who transitioned into AI engineering — developing real-world SaaS products with integrated AI agents. Cloud certified and eager to contribute and grow at a forward-thinking organization.

TECHNICAL SKILLS

AI / GenAI: AI Agents · RAG (Retrieval-Augmented Generation) · MCP (Model Context Protocol) · LLM Tool Calls · Prompt Engineering · Vector Databases

Languages: Python, JavaScript, Java, C, C++

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL (NeonDB), Oracle, ChromaDB

Frameworks: Google GenAI SDK, OpenRouter

Frontend: React.js, TailwindCSS, HTML5, CSS3

Cloud: AWS (EC2, S3, Lambda) — Udemy Certified

Tools: Git, GitHub, VS Code, MS Office, Postman

OS: Windows, Linux (basic)

WORK EXPERIENCE

PwC AC (PricewaterhouseCoopers)
Jun 2024 – Sep 2025

Specialist – Advisory (US Healthcare)

- Managed Accounts Receivable, revenue cycle operations, and denial management for US healthcare clients, maintaining high financial accuracy and resolving high-priority insurance claims.
- Reconciled and audited payments from clients and insurance companies, maintaining records aligned with US compliance and HIPAA standards.
- Collaborated with onshore teams in a fast-paced MNC environment, demonstrating strong stakeholder communication and consistent on-time delivery.

Career Break – Technical Upskilling
Sep 2025 – Present

Self-directed Learning & Project Development

- Earned AWS Certified Cloud Practitioner (Udemy) and built 2 full-stack AI-powered web applications integrating AI Agents, RAG pipelines, and MCP-based tool orchestration.

PROJECTS

Helper.io – AI-Powered Document Management & Learning Platform

React · TailwindCSS · Express.js · NeonDB · Google GenAI SDK · RAG · MCP

- A premium document management and learning platform where users upload notes and interact with ALKA — an in-built AI agent that summarizes content, generates quizzes, and autonomously manages files using RAG and MCP-based tool calls.
- Built on a React + TailwindCSS frontend with an Express/Node.js backend, Google GenAI SDK for LLM inference, OpenRouter for model flexibility, and NeonDB for persistent storage.

QuickAI – AI-Powered SaaS Platform

PERN Stack (PostgreSQL · Express.js · React · Node.js) · TailwindCSS · OpenRouter · Google GenAI SDK

- A subscription-based SaaS platform offering multiple AI-powered tools — article generation, image creation, background removal, and resume analysis — built on the full PERN stack with JWT auth and tiered access control.
- Integrated Google GenAI SDK and OpenRouter for flexible multi-model AI routing; delivered a responsive React + TailwindCSS dashboard with usage tracking and upgrade flows.
